

## Water Quality Devices

<p><b>Description:</b></p>	<p>ACD has designed a one-of-a-kind pre-treatment chamber for rain gardens. For curb-cut style rain gardens pre-treatment is highly recommended. This device is installed at the curb cut to filter all water entering the rain garden. It includes a box trap and filter. It is easily cleaned, and made from composite plastics that require no maintenance.</p> <div style="display: flex; justify-content: space-around;">  </div> 
<p><b>Components of Work:</b></p>	<p>ACD will purchase materials, assemble, and provide installation guidance.</p>
<p><b>Fees</b></p>	
<p><b>Pre-treatment Chamber</b></p>	<p>\$650</p>
