

## 2019 ACD Legislative Day at the Capitol

The Anoka Conservation District (ACD) Board Supervisors and Staff met with local Legislators on February 26, and March 6, at the State Capitol. The ACD strives to meet with local legislators to show case the many natural resource activities conducted by landowners with ACD support. This year the focus of discussion was about water resource management and how to address the funding challenges of Soil and Water Conservation Districts throughout Minnesota.
