TAXABLE FRINGE BENEFIT

The District does not offer an employer provided medical or dental insurance program. The District shall pay a set dollar amount per month in taxable fringe benefits. These benefits shall be paid directly to the employee. This amount is received by the employee even if they obtain insurance through a spouse's plan. Currently \$900/month.

DISABILITY

Regular and limited-term employees shall receive Disability (combined short-term and long term) coverage. This coverage provides a specified percentage of income protection up to a maximum monthly benefit in the event of permanent and total disability after a waiting period of 30 days. The District pays the cost of this coverage. Disability payments are integrated so that any combination of paid FTO leave, Social Security, PERA, Worker's Compensation, and Disability will not exceed an employee's regular gross pay.

FLEXIBLE BENEFITS

The District's flexible benefits has two parts: the Health Care Reimbursement Plan allows eligible employees to participate in an account that provides reimbursement for certain health and dental care expenses not reimbursed by insurance: and the Dependent Care Reimbursement Plan provides an account for reimbursement of dependent care expenses (e.g., child care). Employees who participate in these plans can reduce their tax liability and lower the employer-paid taxes as well.

DEFERRED COMPENSATION PROGRAM

The District provides employees the opportunity to participate in deferred compensation plans, which are voluntary plans that allow employees to place a portion of their earnings into a pretax deferred investment program.

Taxes on money set aside and earnings on the funds are deferred until the time of withdrawal. This allows employees to defer present income for long-term savings to supplement retirement. Several different types of investment options are available. Funds may be withdrawn at the time an employee leaves District employment.

PUBLIC EMPLOYEE RETIREMENT ASSOCIATION

ACD employees are enrolled in the Public Employees Retirement Association (PERA). ACD contributes 7.5% of wages and employees contribute 7%. The employee portion remains an asset of the employee. ACD's portion becomes the employee's after vesting (5 years in PERA), which may accrue over multiple employers that utilize PERA. PERA is a pension, not a 401K. It pays a monthly amount from retirement until death based on formulas for the employee's highest five income years. Search PERA's website to learn more.

BENEFITS FOR DISTRICT RETIREES

The District shall make the following monthly contributions toward a qualified retiree's individual or family health insurance plan:

EMPLOYEE DEVELOPMENT

IN-SERVICE TRAINING

The District shall provide appropriate in-service training of employees to improve the quality of services rendered to the District and to assist employees to prepare themselves for advancement in District service. The District shall assist the District manager in developing and conducting training to meet the specific needs of the District.

TUITION REFUND

Regular employees that have passed their initial hire probation may be eligible for reimbursement of tuition and required course fees for courses taken for credit through accredited educational institutions up to \$500 per year per employee. It is the employee's responsibility to pay for any books or supplies required. Textbook reimbursement will only be considered if the District requires the employee to attend a college level course for credit.

CONFERENCES OR WORKSHOPS

Conferences and workshops are to be job-related and used to develop the information and skills of District staff. Examples of training programs are workshops, University of Minnesota extension courses, and Board of Water & Soil Resources (BWSR) courses.

The following criteria are to be used in selecting conferences or workshops to attend:

1. Topic has application to employee's job; and
2. Attendance will allow for making essential contacts or obtaining information important to the improved operations and functions of the department; and
3. Information is needed to complete or meet changes in job responsibilities because of internal or statutory changes.

Any cost incurred for an educational course requested by the District shall be reimbursed in total.
